

# Request for pathology report not to be sent to My Health Record

## Note:

Your patient may wish for certain pathology reports not to be submitted to My Health Record. We encourage you to discuss this with your patient. This will not affect your current business process of requesting and receiving pathology reports, it simply stops the information being sent to your patient's My Health Record.

### 1. In Pathology Request, tick **Do not send to My Health Record**.

The screenshot shows the 'Pathology request' form. At the bottom, there are two checkboxes: 'Add an entry to the actions database' and 'Do not send to My Health Record'. The 'Do not send to My Health Record' checkbox is highlighted with a red rectangular box. Other visible elements include a sidebar with navigation icons, a 'Favourite tests' list with 'HDL Cholesterol' selected, and various clinical and billing options.
